THE COLOR OF THE POT.

"Now facts is what I want," said Gradgrind. But in the case of the Republican party facts are the very things they don't want. They prefer buncombe and brag and lies and delight in assertions whose foundation is some-

thing far other than eternal truth. During the present campaign the entire party and all its leaders and writers have been frantically persistent in charging upon the Democrats a criminal sympathy with the South, and have made the "Confedro-Democracy" one of the bug-bear issues of the fight. A brief examination of facts serves to such a source and exposes its hypocritical character. Even a cursory glance at the list of Confederates who have been elevated to positions of profit and honor by the Republican leaders demonstrates the fact that if anything is to be feared from that source their own acts have supplied the reasons for pop-

To illustrate we give a list, very probably incomplete, but none the less sufficient to destroy the force of the Republican howling in regard to the matter.

In a late issue of the New York Herald, the professed and acknowledged champion of the Money Power, we find the more complicated and uncertain sitthe following description of how the Re- uation in this State. publicans saved themselves from an overwhelming defeat, as detailed by that paper's special correspondent:

Not all the votes which were cast for Davis were secured from love of the Republican cause or admiration for the honest dollar, or party prejudice or fear of Democratic ascendancy. It is a shame to be obliged to record that there was much buildozing of a "civilized sort" remuch buildozing of a "civilized sort" resorted to by wealthy firms and rich corporations and manufacturing establishments upon their poor employees. Many workmen were discharged for avowing their purpose to vote the Greenback ticket. Many cases of this nature can be named to the shame of the State and our New England civilization. Then the votes of many army and navy pensioners were influenced by threats of the examining surgeons and othand navy pensioners were influenced by threats of the ecamining surgeons and oth-ers that if they did not vote the Republican ticket their pensions should be withdrawn. This disgraceful appliance is thought to have added materially to the vote for Davis. The search of Congressional Com-mittees for cases of bulldozing and intim-idating voters would be promptly reward-ed by a visit to Maine. It would seem that Congress should take some notice of the threats made to the disabled defend-ers of the Union, and it is understood bet the case of one persioner in Oxford ers of the Union, and it is understood that the case of one pensioner in Oxford County who was cut off on account of joining the Greenback party, will be presented before Congress early in the next session. Beyond the arguments on the stump, distribution of political literature, buildozing of employees and U. S. pensioners, the Republicans employed a lever which was more powerful and effective than all the others combined, viznoney. They evidently had a large fund and they expended it judiciously and to the best advantage. It was raised at home and the National Committee gave permission to the State Committee to Iraw upon it for as large a sum as might

But in the last issue of the Truth-Seeker, an independent paper published in New York, handed us by Joseph Sedgbeer, Esq., we for once find the brillian will-'o-the-wisp's name connected with a move that ought to be supported by the entire American people—that of calling a convention to demand the release from prison of D. M. Bennett, editor of the paper referred to, who is now serving a thirteen month's sentence procured through the efforts of Mr. Anthony Comstock, for publishing an extract from a work known as "Cupid's Yokes," on the ground that by so doing he was engaged in the business of circulating obscene literature. While we sympathise with Mr. Comstock's objects we have none for his hot-headed fanaticism and, in addition, an indignant loathing for the sneaking and dishonorable methods he adopts to secure what he calls evidence. In the present instance the conviction was so manifestly unjust that we hope to see a pardon promptly granted.
